Requirements:

- All equipment must be new and be installed on a Minnkota member cooperative system or a NMPA municipal system.
- Electric heating system must be on off-peak with a qualified backup heating system.
- Electric heating must be the primary source designed to heat the building.
- Electric heat is individually metered under a special rate.
- Electric heat equipment must be hard wired (no plug-in loads eligible for rebate).
- Air-source heat pumps and mini-splits have to be part of an off-peak heating system to be eligible for this rebate.
- Air-source and ground-source heat pumps must meet the CIP requirements outlined in the electric heat program description.
- Rebate not to exceed \$1,500 for all eligible heating equipment rebates per off-peak electric heat meter.
- Requests can be made to exceed maximum rebate for large installations. Rebate will be reviewed on a case-by-case basis.
